

Elog - Feature #6895

entry link

Description			
<p>The entry link feature supported by elog is either limiting the scope to the target entry only, or changing to day scope and no refinement. Either way it is kind of inconvenient.</p> <p>My suggestion would be that entry link takes user to the target entry while keeping the time scope unchanged. And, add refined by field if target entry is from different elog.</p>
