Ming-Jen is being overly critical of his log entries.

I suspect that most of his goal here is achievable with the antiselector (hint...)

#3 - 10/29/2014 10:58 PM - Kyle Hazelwood

If only redmine had a user anti-selector for bug reports... (I'll get us an anti - selector, don't worry)

I pushed out this feature this afternoon. Text lengths greater than 850 characters are truncated to 750 characters and a "...Read More" button is appended to the end of the text. Pushing the feature out was the only real way to test how people may like it.

I haven't heard any real complaints.
