

Elog - Idea #7074

Accelerator Status Update

09/25/2014 03:04 PM - Dennis Barak

Status:	Assigned	Start date:	09/25/2014
Priority:	Low	Due date:	
Assignee:	Kyle Hazelwood	% Done:	0%
Category:	Client	Estimated time:	0.00 hour
Target version:	Version 2.0	Spent time:	0.00 hour
Description			
<p>The E-log has become the go-to for accelerator status updates for many AD employees. It is not, however, fully optimized to fill that role. I suggest adding a section to the E-log displaying the current accelerator status. This section could be its own sidebar or it could be an always-on-top entry. Since Operators are constantly using the E-log, the status would remain up-to-date and relevant. Additionally, it would be doubly beneficial if the status update was pushed to Channel 13.</p> <p>Thank you for your consideration.</p>

This definitely would be a great tool to have. Experimenters and Experts would find this beneficial. We as OPS sometimes forget to update channel 13 because its not used as often as ACNet programs. So, constantly seeing this at the top of the Elog will be a great reminder to update the current accelerator status.
