Category:		Estimated time:	1.00 hour
Target version:	v1_03_01		
Description			
Yann noticed that there is an error message that is printed out each time that we use the TDCs in the DAQ system at LNGS. This message looks more like an informational message than an error, and we confirmed with Alessandro that it should be relabeled.

- Status changed from Assigned to Resolved

- % Done changed from 0 to 80

I modified V1190Driver_generator to change LogError to LogInfo. Also changed the similar message in V172xDriver_generator from LogDebug to LogInfo.
