Description			
Date: Wed, 8 Oct 2014 20:11:58 -0500 From: Dmitry O Litvintsev < litvinse@fnal.gov > To: Arthur E Kreymer < kreymer@fnal.gov >, dcache-admin < dcache-admin@fnal.gov > Subject: Lost raw minos files			
Hi Art, It appears that stkendc03a host has once again had it OS re-installed and pool partitions re-formatted. (tomorrow it will be sorted out as to why this happened again)			
At least the following 3 files are lost :			
<code>/pnfs/fs/usr/minos/far_dcs_data/2014-10/F141007_000006.mdcs.root</code> <code>/pnfs/fs/usr/minos/neardet_data/2014-10/N00059725_0007.mdaq.root</code> <code>/pnfs/fs/usr/minos/neardet_data/2014-10/N00059725_0001.mdaq.root</code>			
Could minos re-copy to dCache them ASAP.			
Thanks, Dmitry
