

JobSub - Bug #7336

bring the -l option back to jobsub_q

11/18/2014 02:48 PM - Dennis Box

Status: Closed	Start date: 11/18/2014
Priority: Normal	Due date:
Assignee: Dennis Box	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version: v1.0.4	Spent time: 0.10 hour
First Occurred:	Stakeholders:
Occurs In:	
Description	
jobsub_q was able to do a full listing of classad attributes ala condor_q -l but it was lost at some point. Bring it back with appropriate option to jobsub_q.

#3 - 12/10/2014 12:30 PM - Arthur Kreymer

I just tried jobsub_q -l with jobsub_client v1_0_4
It does not seem to be supported.

As kreymer@novagpvm06

```
NOVAGPVM06 > jobsub_q -l --jobid=138378.0@fifebatch1.fnal.gov  
Usage: jobsub_q [Client Options]
```

```
jobsub_q: error: no such option: -l  
NOVAGPVM06 > type jobsub_q  
jobsub_q is hashed (/grid/fermiapp/products/common/db/./prd/jobsub_client/v1_0_4/NULL/jobsub_q)
```

Hi Art,

-l is not supported, --long, the same thing, is.
Also, the only server that supports it now is fifebatch-dev. Fifebatch-preprod will support it when REQ000000214617 is fulfilled.

Dennis
