| <b>Description</b>  |                |                        |            |
| When an image is disproportionally long could it be possible to provide a scroll bar, so that the image needs not be shrunk down to fit inside of the browser window? |                |                        |            |
