

DAQ Operations - Necessary Maintenance #7552

Use Faster Buffer Nodes

12/18/2014 04:24 PM - Martin Frank

Status:	New	Start date:	12/18/2014
Priority:	Normal	Due date:	
Assignee:		% Done:	70%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Use /home/novadaq/.NovaDAQResources.xml_UpperFarmNodes_20141218 to only use farm nodes 61 through 110 on FD. These are newer nodes and are almost twice as fast as the older lower numbered nodes. This file has already been tested on novatest01 and it worked.			
Here are the details: ECL 55559
