

JobSub - Feature #7642

jobsub_fetchlog should not ask for --group

01/14/2015 11:15 PM - Andrei Gaponenko

Status:	New	Start date:	01/14/2015
Priority:	Normal	Due date:	
Assignee:	Dennis Box	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	v1.3.4	Spent time:	0.00 hour
Stakeholders:			
Description			
The --server and --job argument to jobsub_fetchlog uniquely identify the job. Fetchlog should not require users to type their --group as well.

History

#1 - 02/19/2015 01:21 PM - Parag Mhashilkar

- Assignee set to Parag Mhashilkar
- Target version set to v1.2

#2 - 11/05/2015 01:34 PM - Dennis Box

- Target version changed from v1.2 to v1.1.9

#3 - 11/19/2015 03:46 PM - Dennis Box

- Assignee changed from Parag Mhashilkar to Dennis Box

#4 - 12/01/2015 02:07 PM - Dennis Box

- Target version changed from v1.1.9 to v1.2

pushing this back one release - Andre is correct that group should not be needed to find sandbox. Its needed for authentication as well though, and the authentication macros are not written in a way that makes this straightforward.

#5 - 02/04/2016 04:36 PM - Dennis Box

- Target version changed from v1.2 to v1.2.1

#6 - 03/08/2016 05:18 PM - Dennis Box

- Target version changed from v1.2.1 to v1.2.2

#7 - 07/28/2016 02:30 PM - Dennis Box

- Target version changed from v1.2.2 to v1.2.3

#8 - 01/11/2017 02:56 PM - Dennis Box

- Target version changed from v1.2.3 to v1.2.5

#9 - 10/30/2017 11:40 AM - Dennis Box

- Target version changed from v1.2.5 to v1.3

#10 - 05/17/2019 01:54 PM - Dennis Box

- Target version changed from v1.3 to v1.3.4
