I created the "IOTA ASTA" logbook today. Only a few individuals have access to the logbook (Chip, Darren, Dan, myself) but I will update it once I get a list of current users. I will still need to create a new category for each category that exists in the NML logbook.

- Status changed from New to Assigned

I will also need a volunteer to be the log admin. If there were a log admin then that person could edit the user list themselves.

Chip has been made the IOTA ASTA logbook admin. Chip can now create categories and attach those categories to the IOTA ASTA logbook. He can also create users and add them to the IOTA ASTA logbook.
