

Elog - Idea #7764

An easier way to go to a shift timespan after executing a search

02/02/2015 03:47 PM - John Kuharik

Description			
<p>It would be useful to have a 'go to shift' link on each entry for after a search. Clicking the link would set the 'Date Span' to 'Shift', the 'Date Span Range' to the appropriate times, and clear the 'Searched By' criteria. This would let the user go directly to viewing all entries that were made during the same shift of the entry they were searching for.</p> <p>As it is now, two searches have to be performed for the same result. First search for the entry, then search for the start and end dates for that shift.</p>
