

Elog - Bug #8033

Validate email addresses before submit

03/08/2015 09:46 PM - Kyle Hazelwood

Status:	Closed	Start date:	03/08/2015
Priority:	Normal	Due date:	
Assignee:	Kyle Hazelwood	% Done:	0%
Category:	Client	Estimated time:	2.00 hours
Target version:	Version 1.0	Spent time:	0.00 hour
Description			
The client (javascript) should validate email addresses supplied by the user before they submit the email because if the address is wrong it fails on the server side destroying the email.			

History

- Status changed from New to Closed
- Target version set to Version 1.0

I do not validate the email addresses on the client side, but if the server balks at the email addresses it will not destroy the email because it is submitted via ajax.
