| Description | | | |
| Chip Edstrom: I tried activating the NML General category (since we use it on a regular basis for building-wide notes- e.g. prep for shutdowns) but it says that I lack permission to enable the shared category... it doesn't look like it's shared though: <ul style="list-style-type: none">• Timestamp: 2015-03-05 09:22:45.273• URI: /Elog/editCategory• Query: null• Exception: null• Message: User: edstrom has insufficient admin permissions to edit shared category 167.• Status code: 403• User agent: Mozilla/5.0 (Windows NT 6.1; WOW64; rv:31.0) Gecko/20100101 Firefox/31.0 | | | |

History

#1 - 03/08/2015 10:08 PM - Kyle Hazelwood

I've found the bug, it was a clear logic problem. I guess no log admin had ever tried reactivating a category. This is fixed on the test server.

#2 - 11/22/2016 07:28 PM - Kyle Hazelwood

- Status changed from Assigned to Closed

- Target version set to Version 1.0

This is fixed.
