<b>Description</b>			
From Chip Edstrom:  So... the problem that we ran into today is that some of the studies that we do involve pictures... several pictures. On occasion these have and will probably continue to exceed the 25MB limit on files. The zip file from today's energy scan study, for example, is 65.5 MB. Is there anything that we can do to allow larger files like this? A few of our ECL entries have similarly large attachments, and it would be really nice to keep the data with the relevant log book entry.			

### History

#### #1 - 11/23/2016 10:57 PM - Kyle Hazelwood

- Status changed from Assigned to Closed

- Target version set to Version 1.0

Now 100 MB with new elog version.
