Target version:			**Spent time:**	0.00 hour

Description

On the art project issues page there are two issue ([#8226](#8226) and [#8227](#8227)) for which I did not receive new issue alerts, even though the configuration has not changed at all recently.

History

I have the same problem and have just resorted to editing my settings. Apparently you do get notified if you ask to be notified of changes to selected projects.
