Task # 8679: DBA: provide the Database server for VOMS			New
Task # 8680: Reconfigure all VOMS servers to point to the new DB servers			New

History

#1 - 05/08/2015 10:56 AM - Nicholas Peregonow

- Follows Task #8670: Reinstall voms1 and voms2 added

#2 - 05/08/2015 11:34 AM - Gerard Bernabeu Altayo

- Follows deleted (Task #8670: Reinstall voms1 and voms2)

#3 - 05/08/2015 11:37 AM - Gerard Bernabeu Altayo

- Subject changed from Move fg5x4/fg6x4 VOMS DB to DBAs to Move fg5x4/fg6x4 VOMS DB to DBAs on new mysql server

This can be done at any time, will need coordination with any VOMS server running at the time.

We need to coordinate this with the DBA team and FIFE to make sure no need entries are created while in transition (we should stop the voms servers during the DB move).
