

inst-bpm - Bug #9088

BPMDRO does not release on exit

06/10/2015 11:04 AM - John Diamond

Status:	New	Start date:	06/10/2015
Priority:	Low	Due date:	
Assignee:	John Diamond	% Done:	0%
Category:	bpmd	Estimated time:	4.00 hours
Target version:		Spent time:	0.00 hour
Description			
<p>The shared memory segment setup by bpmd for the digitizers to readout into (BPMDRO) does not release properly when bpmd exits. You can see the segment is still reserved in /proc/rtai/rtai_names. This does not seem to have much effect though as bpmd will just re-attach when it restarts.</p>
