

cet-is - Bug #9309

exception category history limited to two items.

06/26/2015 03:27 PM - Christopher Green

Status:	Closed	Start date:	06/26/2015
Priority:	Normal	Due date:	
Assignee:	Christopher Green	% Done:	100%
Category:		Estimated time:	0.50 hour
Target version:	1.15.00	Spent time:	0.50 hour
Scope:	Internal	SSI Package:	cetlib
Experiment:	-	Co-Assignees:	

Description

In the constructor, `cet::exception(Category const &, std::string const &, exception const &)`, the incoming exception category is truncated to only the category of the current exception and that of the most recent included exception, causing `root_cause()` to be inaccurate for exception chains of length greater than two.
