

VOMS - Task #9352

Deploy VOMS server instance for VO "DUNE"

07/02/2015 10:16 AM - Nicholas Peregonow

Status:	Assigned	Start date:	06/29/2015
Priority:	Urgent	Due date:	07/09/2015
Assignee:	Nicholas Peregonow	% Done:	30%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	12.00 hours
Description			
Received task: TASK0059239 to deploy a new voms server instance for the "DUNE" VO. This will be done on the current production voms servers. Currently testing this on cloudvoms1/cloudvoms2. Once it is verified to be working correctly, will need to push this to production.			
Once this is setup, will need to have this moved to the test voms service cluster on mariadb.

History

#1 - 07/02/2015 10:17 AM - Nicholas Peregonow

- Precedes Task #8661: Deploy VOMS3.fnal.gov added

#2 - 07/02/2015 10:18 AM - Nicholas Peregonow

- Precedes Task #8662: Evaluate current puppet module added

#3 - 07/02/2015 10:19 AM - Nicholas Peregonow

- Due date set to 07/09/2015

Currently debugging puppet module, as it has not properly created the VO database for DUNE.
